Most awarded Oracle Analytics partner in the Asia Pacific

The region's first full-service Oracle provider

25+ years of Oracle integration experience

Diverse private and public sector expertise

DXC Insights. Integrated role-specific data analytics and business intelligence.

At a time when IT systems and business environments are more complex than ever, what's the best way to simplify, streamline and supercharge the data-to-business decision journey for leaders at all levels across your organisation? DXC Insights for Oracle.

Our comprehensive Oracle® based solution is preconfigured for your industry and leadership roles. It unlocks the hidden potential in your data, harnessing powerful modelling, visualisations and machine learning capabilities to deliver insights in intuitive, user-focused dashboards.

The result is smarter, faster and more effective decision making at every level, across the board.

How DXC Insights changes the analytics game

DXC Insights is a single-source-of-truth analytics solution that's preconfigured for your industry and, crucially, able to give every leader in every business discipline the insights they need to take uncertainty and risk out of decisions.

Any role, every business vertical from the board to frontline managers

					
CEO	CFO	COO	CSO	CHRO	CIO

Why choose DXC Practice for Oracle?

As the Asia Pacific's premier Oracle partner, we've been harnessing Oracle's market-leading technologies and innovating industry solutions for over 25 years – solutions that give our clients across the region an ongoing, ever-evolving competitive edge.

Our suite of BI, EPM and ERP solutions, which includes DXC Insights, embodies this technical expertise, showcasing our industry-leading Oracle Cloud IP and our global team's pioneering spirit.

We have unparalleled Oracle integration and implementation experience. Our solution design, development, testing and deployment expertise spans the project lifecycle, enabling us to minimise costs and timeframes at every stage. Additionally, our managed services capabilities ensure your business will maintain its competitive advantage and maximise your ROI into the future.

Deeper insights. Smarter decisions.

With DXC Insights deployed, optimised and managed by your dedicated team, your business is equipped with an arsenal of ever-evolving analytics, data visualisation and strategic modelling tools.

Automate

Automated data discovery, preparation, visualisation and plain English narration

Visualise

Self-service data analytics and visual data blending for deeper insight discovery

Enrich

Augmented data enrichment that transforms, enhances, reconciles and heals data

Accelerate

Enhanced analytics using machine learning to discover insights faster

Collaborate

A common BI language enabling organisation-wide collaboration

Envision

Scenario modelling to answer and anticipate 'what-if' questions

Predict

One-click drag 'n' drop clustering to identify anomalies

Uncover

Integrated machine learning uncovers unseen patterns and insights

Individually tailored insights. Organisation-wide empowerment.

Ready to go, out-of-the-box and extend for any leadership role, DXC Insights makes decision-making and consensus across your business, at every level easier than ever.

DXC Insights gives your leaders at-a-glance access to a world of data distilled into objective, crystal-clear, plain English insights.

It enables leaders to collaborate more easily and extensively, with a common visual and verbal analytics language that fast-tracks strategic planning and operational optimisation.

Oracle Autonomous Data Warehouse and Oracle Analytics Cloud:

Better together

DXC Insights brings together the best of Oracle's Cloud, combining Autonomous Data Warehouse and Oracle Analytics Cloud for a full-stack, fully scalable solution that's as flexible as it is cost effective.

Business benefits

Ready to go and grow.

Preconfigured for your industry. Easy to extend and personalise.

Evolve at will.

Scale up or down. Extend vertically and horizontally. The cloud makes it easy.

Deploy faster.

Cloud and hybrid options that are up to 50% faster to rollout.

Lower TCO.

Built in and for the cloud, with bundled services minimising costs.

Total objectivity.

Machine learning ensures unbiased analysis, insights and decisions.

Boost productivity.

Expedite the path from data to insights to decisionmaking to action.

User experience

Machine learning

DXC Insights' machine learning capabilities help ensure no insight, risk or opportunity is ever missed.

Cut to the chase.

Distil mountains of data into precise insights and reports instantly.

See it your way.

In your dashboard. On mobile. In whatever way that works for you.

Drill down, open up.

Go to the next level of analysis and share your ideas.

Collaborate easily.

Blend organisation-wide data from a single source of truth.

Save time.

Instead of reconciling data, focus on insights, decisionmaking and driving change.

Fine tune to suit.

Extend dashboards to balance governance and user autonomy.
